## Review of Operations :-

## Sales & Prices:

#### India

Indian Production continued to suffer for second year in succession due to unfavorable weather. Indian Production was lower at 1191 Million Kg during calendar year 2015 as compared to 1207 Million kg during 2014 Exports were higher by 10 million kg mainly on account of shortage in Kenyan production and improvement in geopolitical atmosphere amongst consuming countries like Russia, Middle East, Egypt and Pakistan. Tea prices in India were similar to last year despite lower production due to sluggish rural demand. The tea prices for the Company for the year are higher by Rs.2 per kg at Rs.174 as compared to last year. The total sales volume during the year was higher by 6.2 million kg. Total Exports for the Company during the year was 19 Million kg at Rs.215 per kg against 13 Million kg at Rs.220 per kg last year.

## Uganda

McLeod Russel Uganda Limited (MRUL) has sold and exported 18.3 million kg (2014- 17.2 million kg) at an average price of USD 1.56 per kg (2014- USD 1.56 per kg) and achieved turnover of USD 28 million. Prices were similar as compared to last year.

#### Vietnam

Phu Ben Tea Company, Vietnam has sold and exported 10 million kg of Tea at an average price of USD 1.40 per kg as against 5.5 million kg at USD 1.63 per kg last year. Prices were lower by 15% as compared to last year.

#### Rwanda

Gisovu Tea Company Limited, Rwanda has sold and exported 2.27 million kg of Tea at an average price of USD 3.51 per kg as against 2.01 million kg at an average price of USD 2.95 per kg. Prices were higher by 19% as compared to last year.

Newly acquired Pfunda Tea Company Limited, Rwanda has sold 2.39 million kg of tea at an average prices of USD3.15 per kg.

## Production:

#### India

Production from own leaf was higher by 2.5 million kg. Production by bought leaf was higher by 3.1 million kg. The Company achieved total production of 85.6 million kg against 80 million kg last year.

## Uganda

MRUL have achieved a total production of 18.4 million kg during the year 2015 as compared to 18.2 million kg last year on improved weather condition.

#### Vietnam

Tea Production at Phu Ben during 2015 was higher at 8.7 million kg as against 7.1 million kg last year.

## Rwanda

Gisovu Tea Company Limited produced 2.2 million kg during the year as against 2.0 million kg last year.

Pfunda Tea Company Limited produced 2.4 million kg during 2015.

## Operating Result :

Consolidated Operating Earnings Before Interest Depreciation and Tax (EBIDTA) is higher at Rs.167 Cr as against Rs.130 Cr last year. The increase in EBIDTA was mainly due to increase in production and prices for Uganda and Rwanda operations.

#### India

Operating EBIDTA on standalone basis was lower at Rs.82 Cr against Rs.126 Cr on substantial increase in wages during the year. The impact of price increase of Rs.2 per kg was not sufficient to take care of such increase in costs. EBIDTA Cost per kg went up to Rs.167 as compared to Rs.157 per kg.

## Uganda

Operating EBIDTA for McLeod Russel Uganda Limited was higher at USD 8.45 million as against USD 2.9 million last year. Net profit was USD 5.21 million as against USD 0.8 million last year.

### Vietnam

Operating EBIDTA for Phu Ben Tea Company was lower at loss of USD 0.8 million as against loss of USD 0.4 million last year due to reduction in prices by 15%.

#### Rwanda

Gisovu Tea Company Limited had Operating EBIDTA of USD 3.26 million as against USD 1.7 million last year mainly on account of higher prices.

Pfunda Tea Company Limited had operating EBITA of USD 3.19 million for the year 2015.

## OUTLOOK:

Black Tea production during 2015, was negatively impacted by lower production in India and Kenya. Tea prices at Mombasa auction increased by 20% over previous year. However, tea prices in India maintained at last year's level. We have observed complete reversal of these factors during first four months of current year. Tea production in Kenya is reported to be higher by 40 million kg up to March as compared to previous year on account of much improved weather conditions. Tea prices at Mombasa auction during the first four months of the year have decreased by 20% as compared to last year. Weather conditions in India during first few months of new season have improved substantially as compared to dry weather conditions last year. It is expected that the industry would recover substantial part of crop losses suffered last year. Prices in India are likely to remain firm mainly due to robust demand in Indian as well as Global markets. Recovery of crop should help in setting off increase in the wages and other input costs.
