4.	Sales Quantity	119 lakh Kg.	111 lakh kg.	(+) 8 lakh kg
5.	Production	236 lakh kg.	241 lakh kg.	(-) 5 lakh kg

Review of Operations :-

➤ **Production :**

Indian Production for the calendar year up to June is estimated to be lower by 15 million kg as compared to last year mainly due to adverse impact of weather conditions. South Indian Production was lower by 9 million kg whereas North Indian Production was lower by 6 million kg. Tea Production in African region has been higher by 35 million kg as compared to last year due to normal weather in Kenya during period from January to May of the current year. Tea production for the Company from own leaf was similar at last year for the quarter and production from small grower's leaf was lower by 0.5 million kg.

■ Sales & Prices:

Increase in production in Kenya had negative impact on prices at Mombasa auctions. The prices up to June for African teas are lower at USD 2.6 per kg as against USD 2.81 per kg for the same period last year. Prices in India for the current period are higher as compared to last year on lower production. Tea prices for the Company is higher by Rs.16 per kg for the quarter as compared to last year. Sales quantity is higher by 8 lakh kg on higher demand.

■ Operating Result :

The Company has posted Operating profit of Rs.17 crores against Operating profit of 13 Crores last year. This is mainly attributed to increase in prices by Rs.16 per kg. Revenue from Operations are higher by 15% on higher volume by 8 lakh kg. Staff cost has increased by Rs.25 crores during the quarter on account of interim revision of wages in tea estates effective 1st March 2018. Consumption of Raw Material (cost of small growers' leaf) is lower by Rs.4 crores due to decrease in volume.

OUTLOOK :

● Global Production :

Tea Production in Kenya is reported to be higher by 35 million kg up to June as compared to last year due to normal weather conditions. We expect the production from Africa to remain higher for the rest of the season.

Indian Production :

Indian Production is estimated to be lower by 15 million up to June as compared to last year due to lower production both in North India as well in South India. Overall production for the country is expected to be in the range of 1300 million kg for the full year assuming weather to remain favorable for the rest of the season.

Tea Prices & Costs :

Tea prices in African region have been lower by USD 0.20 per kg up to June due to recovery of crop in Kenya. The prices are likely to improve during the second half of the year as demand grows from Middle East and Pakistan.

Tea prices in North India are higher by Rs.4 as compared to last year at Auctions. However, week on week basis Prices have improved further by Rs.5 per kg. We expect the gap to increase further particularly for North Indian Teas as demand for exports improves and on expectation of growth in rural demand post normal monsoon in the country. Impact of increase in prices should start reflecting from the second quarter onwards.

Cost during the year is expected to be higher by 9% in absolute terms due to increase in wages and input costs.

Phu Ben Tea Company Limited, Vietnam :

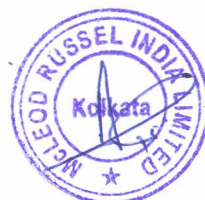

During the six months ended 30th June 2018 Phu Ben achieved a total production of 2.01 million kg of tea as against 1.7 million kg for the same period last year. Average prices for the period was USD 1.43 per kg against USD 1.38 per kg last year. It is estimated to record EBDITA loss of USD 0.45 million as against loss of USD 0.15 million for same period last year.

McLeod Russel Uganda Limited, Uganda :

During the six months ended 30th June 2018 McLeod Russel Uganda has achieved a total production of 7.7 million kg as against 6.4 million kg during same period last year. Average prices for the period was USD 1.79 per kg against USD 1.85 per kg last year. It is estimated to record EBDITA USD 4.02 million as against USD 4.67 million for same period last year.

Gisovu Tea Company Limited, Rwanda :

During the six months ended 30th June 2018 Gisovu Tea Company Limited has achieved a total production of 1.34 million kg as against 1.50 million kg during same period last year. Average prices for the period was

USD 3.49 per kg against USD 3.86 per kg last year. It is estimated to record EBDITA USD 1.81 million as against USD 2.57 million for same period last year.

❶ **Pfunda Tea Company Limited, Rwanda :**

During the six months ended 30th June 2018 Pfunda Tea Company Limited has achieved a total production of 1.43 million kg as against 1.31 million kg during same period last year. Average prices for the period was USD 2.58 per kg as compared to USD 3.02 per kg during the same period last year. It is estimated to record EBDITA USD 1.13 million as against USD 1.76 million for the same period last year.
